

1. Imagine that you are an SLP working with an AWS (adult who stutters) who has been stuttering for many years, and respond to the following (12 points):
 - a. Describe one point from the TED talk by Dan Hudock (“Please let me finish my sentence,” linked in the PowerPoint on assessment of fluency disorders) that you might want to convey to your client. Why is this an important point to convey?
 - b. In your own words, describe how you might use a ***person-centered focus on function*** to help in setting therapy goals for your client:
